Conservation District

**Clean Water Indiana**  
Cost Share Program  
Application Form

**Complete this form and return to your local Soil and Water Conservation District by March 31, 2022.**

This program offers cost-share assistance to eligible producers for the following practices: \$20 per acre/cover crops; \$20 per acre/conservation tillage (new adopters only); \$20 per acre/Integrated Crop Management or Nutrient Management; \$10 per acre/gypsum application and soil testing (no previous history of soil testing). Cost-share funds are paid in arrears and copies of receipts and seed tags must be turned in to your local SWCD for reimbursement. Allocation of Clean Water Indiana funds are determined through a competitive process. SWCD Board members will rank all applications based on chosen criteria, and applicants will be funded until all funding is depleted for the calendar year. Please note that funds are limited and enrollment acreage maximums apply.
